Changing Your Site Profile Picture
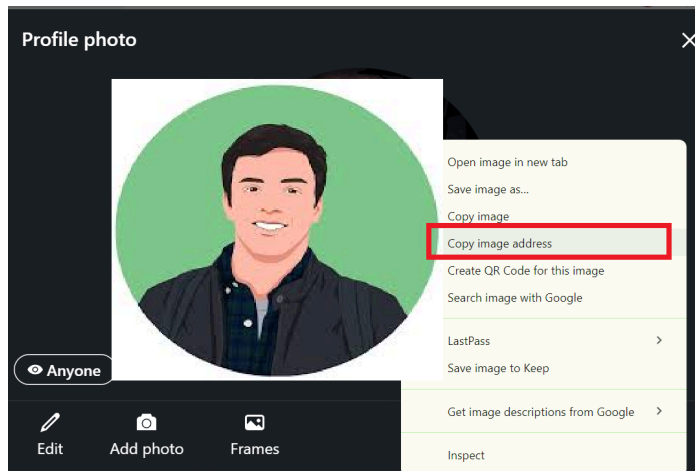

How to Change Your Site Profile Picture using your LinkedIn photo

**Step 1**: Open Your LinkedIn account, and Click on your image.

- *Note: you will need a LinkedIn profile with a headshot for these steps!*

Step 2: Right-click on the image, then click "Copy Image Address."

Step 7: Once you have your image link, in the index.html file, you will replace the current image. As shown below

Step 8: Save your index.html file, and your image will be updated!
